

EMS SOLUTIONS® Inc.

Welcome to the **In-House Nursing and Allied Professionals Education Administrator's Management Series...**

We at EMS Solutions have developed a Windows-based approach to making your job of managing and tracking the educational requirements of a In-House Department's Nursing and Allied Services Staff as simple as possible. We have developed this specific solution which will perform the following functions:

- + This File, called **E.D. Personnel Records**, allows you to maintain complete contact information and educational records on all of your Emergency Department Nursing Staff, including information on CEU and Division recertification tracking. It includes automatic generation of expiration warning and suspension letters as well as OEMS documentation regarding Basic Skills and Recertification. In addition, a Memo tool is provided for making brief, personalized or general announcements to the staff.
- + The Second, **Reference Records**, allows you to maintain specific education requirements on a per-departmental basis, allowing for customization of letters to a particular staff member based on their primary work assignment.

The price for this package is \$ 495.00, delivered. **A Multi-User Version is also available. Please call for additional information.**

Operating systems supported: Windows95/98/ME/NT/NT2000 and MacOS. Telephone support is free for 90 days. On-site support is available for \$85.00/Hour, portal-to-portal. Purchase can be made by check or Credit Card (\$20 processing fee additional).

Our Phone Number is (201)-847-9291. Please send your inquiries/orders to:
EMS Solutions, Inc., P.O. Box 338, Wyckoff, NJ 07481-0338
